LUXMAINER™

The Luxmainer lighting brand has focused on improving and providing the most energy-efficient lighting solutions. In striving to provide a comprehensive set of solutions for almost all possible lighting needs, Luxmainer has developed lines that fulfill everyday niches, such as home and office lighting, as well as specialized ones, such as warehouse and manufacturing. Luxmainer's line of products is also differentiated in indoor and outdoor specialized products, some of which can withstand the elements with ease.

LED BULBS

Luxmainer's Bulb line of products brings together advanced techniques in producing the most efficient bulbs possible. By bridging the gap between perfect light and decorative aesthetics, the Luxmainer LED Bulbs are used as devices in order to create any manner of desired atmosphere.

SMD LED PANELLIGHT SERIES

The Luxmainer LED Panel line of products provides a perfect fit for both new buildings, and spaces that are being renovated. It provides a substantial increase in the quality of light, while more than halving maintenance and upkeep costs. As a singular surface of light, it provides incredible lumination, and its homogeneous brightness washes over surfaces while looking ultra modern. With various capabilites, from remote control to dimming, the LED Panels have something for every situation.

SMD SURFACE LED PANEL LIGHT SERIES

The Luxmainer LED Panel line of products provides a perfect fit for both new buildings, and spaces that are being renovated. It provides a substantial increase in the quality of light, while more than halving maintenance and upkeep costs. As a singular surface of light, it provides incredible lumination, and its homogeneous brightness washes over surfaces while looking ultra modern. With various capabilites, from remote control to dimming, the LED Panels have something for every situation.

LED FLOODLIGHT SERIES

The line of Floodlight products by Luxmainer is designed to increase the value of the time spent outdoors. It has been centred on the premise that outdoor areas require strong lights in order to stand out prominently, such as gardens, terraces, as well as recreation night-time areas which can benefit from the lighting not only in an architectural/aesthetic sense, but also in the functional one.

LED FLOODLIGHT SERIES

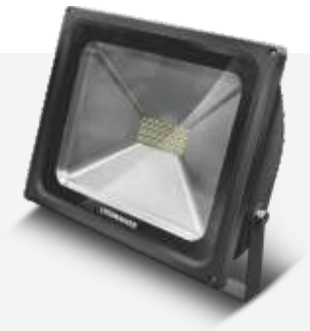

The line of Floodlight products by Luxmainer is designed to increase the value of the time spent outdoors. It has been centred on the premise that outdoor areas require strong lights in order to stand out prominently, such as gardens, terraces, as well as recreation night-time areas which can benefit from the lighting not only in an architectural/aesthetic sense, but also in the functional one.

LED PANELLIGHT SERIES

The Luxmainer LED Panel line of products provides a perfect fit for both new buildings, and spaces that are being renovated. It provides a substantial increase in the quality of light, while more than halving maintenance and upkeep costs. As a singular surface of light, it provides incredible lumination, and its homogeneous brightness washes over surfaces while looking ultra modern. With various capabilites, from remote control to dimming, the LED Panels have something for every situation.

CONTROLLERS

The Luxmainer LED Controllers provide a compact package that excels at facilitating lighting controls for RGB and white-light LED fixtures. As a control solution, the Luxmainer LED Controllers allow for control of not only one fixture, but of a whole system, as well as allowing for a control of the change of colors, from a variety of pre-programmed ones.

SENSOR SERIES

Luxmainer's Sensors seek to provide security and energy efficiency, by utilizing various scientific techniques to detect movement. By focusing on detecting movement and body heat, through the utilization of Infrared, radar and motion sensors, the sensor line of products offers reductions in energy-efficiency, as well as a longer life for bulbs.
